STYPE. Sample Type

BASE: All Respondents

LANGUAGE. Survey Language

BASE: All Respondents

AGE

BASE: All Respondents

Q2. What province or territory do you currently reside in?

BASE: All Respondents

MIP. Now, can you tell me IN YOUR OPINION, what is the most important problem facing Canada today?

BASE: All Respondents

SEEN. Over the past year have you personally seen any significant changes in weather patterns where you live?

Base: All Respondents

SEENO. What changes have you seen personally?

Base: All Respondents

IMPACT. Overall, would you say such changes in weather patterns have been good, bad, or that they have had no real impact on people where you live?

Base: All Respondents

WARMER. In general how would you describe the overall weather in your area this past SUMMER?

Base: All Respondents

EVIDENCE. From what you've read and heard. Is there solid evidence that the average temperature on Earth has been getting warmer over the past four decades?

BASE: All Respondents

CONFIDENCE. How confident are you that the average temperature on Earth is [Response at CONFIDENCE] ?

BASE: All Respondents with valid response to QEVIDENCE

REASON. What is the primary factor that has caused you to believe that temperatures on earth are [Response at EVIDENCE]?

Base: All Respondents

CAUSE. Is the Earth getting warmer mostly because of human activity such as burning fossil fuels, or mostly because of natural patterns in the Earth's environment?

BASE: All Respondents with yes response to QEVIDENCE

CONCERN. How concerned are you, if at all, about climate change?

Base: All Respondents

DISCUSS. How often do you discuss climate change with your family and friends?

Base: All Respondents

THREAT1. How much do you think climate change will harm YOU PERSONALLY?

BASE: All Respondents

THREAT2. How much do you think climate change will harm PEOPLE LIVING IN CANADA?

Base: All Respondents

WHEN. When do you think climate change will start to harm people living in Canada?

BASE: All Respondents

MORE. Do you think governments in Canada should be doing more, less, or about the same as now to try and limit climate change?

Base: All Respondents

OPTIONS. I'm going to read you a list of actions that governments could take to address climate change. Of these, which do you believe is the MOST important action gov

Base: All Respondents

TAX. One way of reducing greenhouse gases and addressing climate change is to put a CARBON TAX on fuels such as coal, oil, and natural gas. Do you strongly support,

BASE: Split Sample

WTP. If it required you to pay extra money each year in order for more clean, renewable energy to be produced, how much would you be willing to pay?

BASE: Split Sample

QM1. Agree/Disagree: My province has already felt the negative effects of climate change.

BASE: Split Sample

[QM2. Agree/Disagree: I have personally felt the effects of climate change.](#)

BASE: Split Sample

[QM3. Agree/Disagree: Instead of trying to stop climate change from happening, we should focus on adapting to a warmer climate.](#)

BASE: Split Sample

[QM4. Agree/Disagree: Climate change is a public health emergency.](#)

BASE: Split Sample

[QM5. Agree/Disagree: Humans will be able to adapt to a hotter climate without making significant changes to their lifestyles.](#)

BASE: Split Sample

[QM6. Agree/Disagree: Canadians are unlikely to make major changes to their lifestyles, so the best way to limit climate change will be through technological solutions.](#)

BASE: Split Sample

[QM7. Agree/Disagree: Removing carbon dioxide from the atmosphere and storing it deep underground should be a major priority of Canadian climate policy.](#)

BASE: Split Sample

[QM8. Agree/Disagree: Now is not the time to address climate change when people are having a tough time making ends meet.](#)

BASE: Split Sample

[QM9. Agree/Disagree: No matter how hard they try, governments won't be able to significantly reduce carbon emissions over the next decade.](#)

BASE: Split Sample

[QM10. Agree/Disagree: We must continue expanding our oil-based economy in order to finance the transition to renewable energy.](#)

BASE: Split Sample

[QM11. Agree/Disagree: If we don't act now, climate change is going to cost a lot more later.](#)

BASE: Split Sample

[QM12. Agree/Disagree: Compared to other countries, Canada is already doing its fair share to address climate change.](#)

BASE: Split Sample

[QM13. Agree/Disagree: It's probably too late to stop climate change from happening.](#)

BASE: Split Sample

[D1. What is the language you use most often in your household?](#)

BASE: All Respondents

[D2. Are you the parent or guardian of a child under the age of 18?](#)

BASE: All Respondents

[D3. Do you self-identify as a member of a visible minority or marginalized community?](#)

BASE: All Respondents

[D4. Generally speaking, do you usually consider yourself as being at the left, the right or the centre of the political spectrum?](#)

BASE: All Respondents

[D5. If a federal election were held today, for which party are you most likely to vote?](#)

BASE: All Respondents

[D6. What is the highest level of education you have attained?](#)

BASE: All Respondents

[D7. Which of the following best describes your gross family household income last year? Is it](#)

BASE: All Respondents

[D11. Gender](#)

Base: All Respondents
